Fluent™

Transitionless Micro-Introducer

*Up to 57% Lower Initial Force Than the Leading Competitor**

As one of the premier providers of .018" micro-access products, Theragenics offers the Fluent transitionless micro-introducer. Designed for ease of access, with specially developed angles and a silicone coating, test data shows the Fluent is more effective in reducing penetration forces than the leading competitor.

Features and Benefits

- Fluent transition from cannula, to dilator, to guidewire
- 4F and 5F sizes with color-coded hubs
- Regular and stiff cannula configurations
- 21G X-Sharp® echogenic needle with bevel indicator
- Variety of guidewire options including high-radiopacity tips
- All-inclusive packaging
- Available as kits or separate sterile

** 1:1 simulated use test data on file at Galt Medical Corp.*
