Kflow® Epic ST

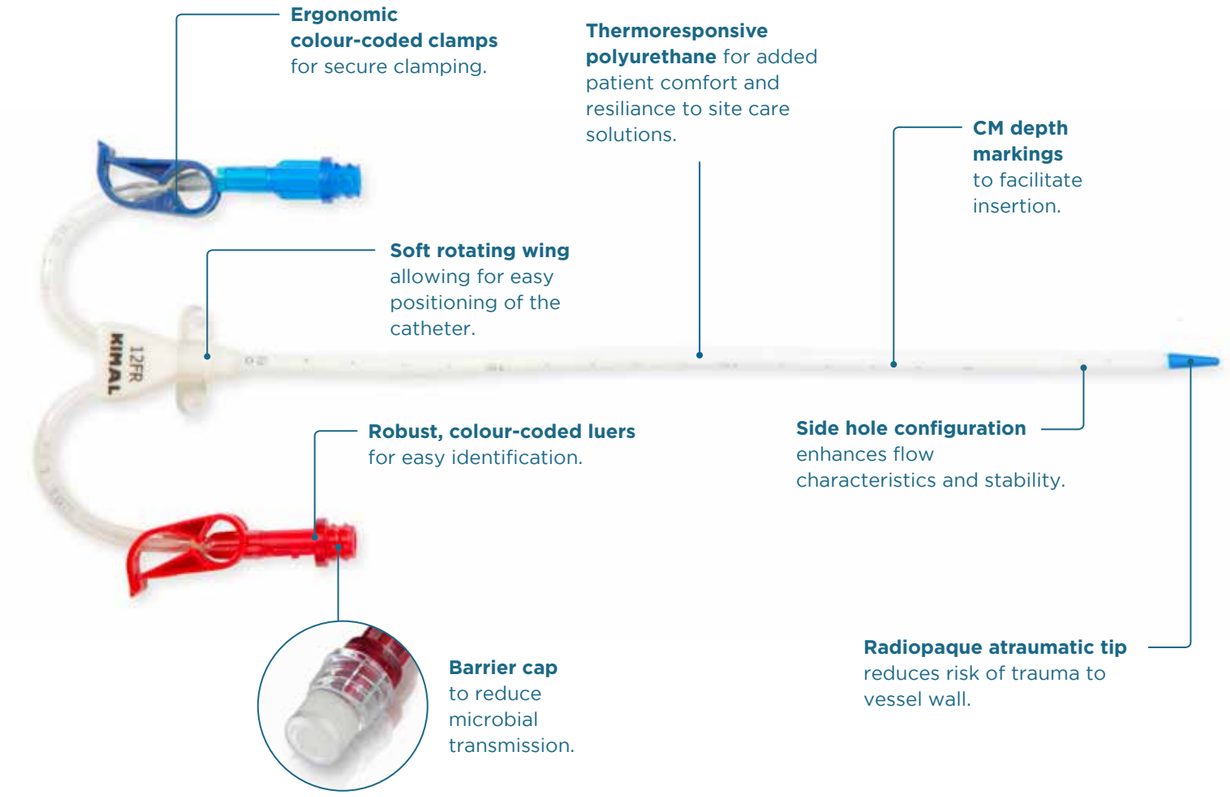

Short-Term Haemodialysis Catheters

Temporary access with
excellent flow rates

Kflow® Epic catheters provide familiar and reliable performance for haemodialysis and apheresis patients.

The dual and triple lumen catheters are available with straight, curved, and pre-curved extensions. All are accompanied with a superior insertion kit.

Ergonomic colour-coded clamps for secure clamping.

Thermoresponsive polyurethane for added patient comfort and resiliance to site care solutions.

CM depth markings to facilitate insertion.

Soft rotating wing allowing for easy positioning of the catheter.

Robust, colour-coded luers for easy identification.

Side hole configuration enhances flow characteristics and stability.

Radiopaque atraumatic tip reduces risk of trauma to vessel wall.

Barrier cap to reduce microbial transmission.

EVERY KFLOW EPIC KIT CONTAINS:

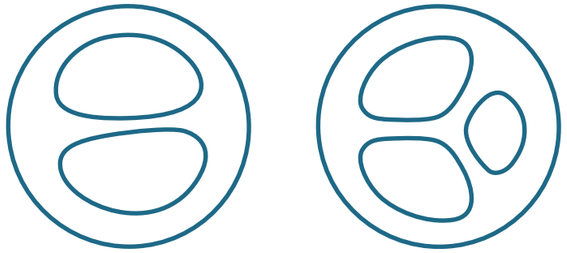

Nitinol J-tip guidewire with thumb wheel dispenser provides easy control.

Introducer needle with side valve allows for bloodless advancement of guidewire.
